

### **Summer Preparation Work**

Welcome to the Faculty of Professional Skills and Performance. We are proud of our reputation for providing high quality education and achieving excellent results. Wilberforce College aims to transform the lives of students from a wide range of backgrounds by providing an education that enables you to become creative and confident contributors to society and as a faculty, we ensure that our students complete their qualifications with the skills and knowledge needed to make a real difference to our community.

In order to be successful on your chosen course, it is essential that you regularly conduct independent research and preparatory work to enhance your understanding of the taught topics. Preparatory work not only reinforces classroom learning but also helps to foster lifelong learning and study habits and provides an opportunity for you to be responsible for your own learning. You are required to complete the preparatory work which is detailed below. The preparatory work is used to assess your level of commitment to this course.

**Please be aware that prep work** is an important aspect of your induction onto all courses at Wilberforce Sixth Form College. Please have this ready to hand in during enrolment or to your course teacher in the first week of lessons.

Kind regards

Stewart Edwards

**Faculty Head for Professional Skills & Performance**

#### **Task 1 - Research**

Unit 6 requires you to research and reflect on your development over the duration of the course. It also links very closely to work place development and career choices.

Your task is to research, using reputable sources, three job roles within the Health and Social Care sector. You must clearly explain the roles and responsibilities each job role entails using relevant examples throughout. The qualifications needed and the career progression opportunities for each job role must also be included.

#### **Task 2 - Create**

You can produce the evidence as three separate fact files / posters or as a written document. The work produced will have a clear title, your name and a list (bibliography) of websites or books used during the research.

Useful sources of information for a wide range of careers within the Health and Social Care sector include:

[www.healthcareers.nhs.uk](http://www.healthcareers.nhs.uk)

[www.targetcareers.co.uk](http://www.targetcareers.co.uk)

The work produced for this task can be used as evidence for your Unit 6 work.

### **Task 3 - Question**

Explain what career are you interested in entering into?

What skills do you have for entering into that career?

Why do you think that you would be suitable for that career?
