

Summer Preparation Work

Welcome to the Faculty Creative Digital. Creative digital is a new Faculty that specialises in the development of digital products ranging from Film and Media, Games Design, Technical support and Computer Science. The summer work we have prepared for you will test your knowledge of digital practices and test your skills in evaluation and analysis. We have prepared the activities to be assessed in the same manner expected in September.

Please be aware that Prep work is an important aspect of your induction onto all courses at Wilberforce Sixth Form College. Please have this ready to hand in during enrolment or to your course teacher in the first week of lessons.

Kind regards

David Hastings
Faculty Head for Creative Digital

Task 1 - Research

Your research task will be to read the video game review for Dirt 2 which you can find on the 'IT – Part 2' worksheet. Note down what sections and conventions are used in the review.

Task 2 - Create

Your task will be to write a video game review. You can pick any game on any platform. The criteria for grading is how we will mark and assess your work. This, along with the content, is on the IT – Part 2 worksheet.

Task 3 - Question

When you start with us in September, we'll be asking you to complete an online Digital Test to gauge your knowledge of different facets of the subject. This will give us an indication of your current digital level.

Have a look at our 'Part 3 - Digital Test' document to see what areas of study you'll need to read up on over the summer.
